LIST OF WARREN COMMISSION DOCUMENTS ON HAND — PAUL. L. HOCH

NOTATION-

The CD number is followed by a list of page numbers. (Ignore the sequence number for continuation cards on the far right.)

In its interview reports, the FBI generally added "*" to the page number to indicate the last page (except for a page listing informants, such as 17H769, or attachments, if any). My list includes these asterisks. Also, for FBI letterhead memoranda, reports from other agencies, and cover letters, I have used "(*)" to indicate a page that appears to be the last one, either based on the appearance of the page or because I ordered the entire document. I may have been wrong in adding "(*)" or "ALL" on a few occasions.

For cover letters, I have sometimes used. e.g., "CL(2 PP)" to mean "CL (1-2(*))"; in general, however, something like "CD 9999, 5 PP" means 5 unnumbered pages from this CD, but not all of it.

If the 185 page list of CD's shows a cover letter and a memorandum, and my list indicates some pages without further specification, they are from the memo, not the cover letter.

Abbreviations used: CL (cover letter), ATT(attachment(s)), INF.P (informants page), TC (table of contents, generally with Roman numerals), SYN (synopsis), PW (Photographic Whitewash), 6SD (Six Seconds in Dallas), INQ (Inquest), SS n (Secret Service Control Number n)

AVAILABILITY-

I will be glad to make copies of specified pages for any other critic at cost; i.e., Xeroxing plus postage. Current Xerox rates are about 3¢ per page, and about ½ of that for reduced size copies (2 pages onto 1), which I would recommend for copies of adjacent pages from a single CD. (The reduced size copies are large enough to be readable; however, some of my copies, and some of the Archives' originals, are so faint or blurred that no legible copies can be made.) Any additional contribution to cover "handling costs" and to help subsidize the acquisition of more documents from the Archives would not be refused.

I would welcome lists of CD's on hand from other researchers, and/or the loan of pages which I do not have, to be copied (unless really uninteresting) and added to this list. Although I do not have a good name or subject index to this material, I would be glad to try to answer questions and requests for CD's on a certain subject.

P.S.-Please let me know if you have a) a list of all CD's by city, or b) notes on the organization, size, or contents of the non-CD files, from a visit to the Archives.
